

Oakcroft Trunks & Stable Accessories Joins Chester Weber's Team of Sponsors

Ocala, FL- Oakcroft Trunks & Stable Accessories is pleased to announce they will be sponsoring World Silver Medalist Combined Driver Chester Weber. Six- time U.S. National Combined Driving Champion, Weber made history in 2008 when he became the first American to win an individual medal in the Four-in-Hand FEI World Driving Championships in Beesd, The Netherlands.

Oakcroft joins an impressive "sponsorship team" that accompanies Weber as he successfully tours and competes. "We are really looking forward to working with Chester and seeing how we can accommodate his needs and support him," said Naomi Despres, President of Oakcroft.

Oakcroft will provide Weber with customized trunks complete with his custom artwork and logo. The trunks will add an air of distinction to Weber's show team, whether on the road or at home. "We are thrilled to be partnering with Chester and his team," Despres added.

Located in West Michigan, Oakcroft continues a third generation family tradition of fine wood craftsmanship with a commitment to service and timeliness. Oakcroft is made up of riders who know the conditions equipment is exposed to in the barn and away at shows. They also understand that a well designed barn and beautiful, hardworking equipment are key components for the successful day-to-day operation of a stable, whether it be a small for-pleasure barn or a large training and showing business such as Weber's home farm, Live Oak Stud, in Ocala, Florida.

Weber is an influential representative for his sponsors, bringing attention of their products to combined driving enthusiasts, professional whips and trainers. Weber's outstanding record, both in the United States and in Europe, makes him uniquely qualified to represent Oakcroft Trunks & Stable Accessories throughout the industry and the world.

Weber has competed in two World Equestrian Games and again has his sights set on the 2010 World Equestrian Games, which will be held in Lexington, Kentucky. Weber's success in the field of combined driving, along with the distinct sophistication of Oakcroft Trunks & Stable Accessories, are sure to create a winning team.
